June 7, 2010

**Dear Principals and Charter School Administrators:**

I would like to encourage you to meet your school earthquake drill requirements by participating in The Great California ShakeOut on October 21, 2010. The first step is to register your school today on The Great California ShakeOut web site at <http://www.shakeout.org>.

Last year more than 5.5 million Southern Californians practiced “Drop, Cover, and Hold On” and other safety procedures as part of the first ShakeOut drill. Students and staff at more than 200 districts and many private schools accounted for four million of these participants! Broad school participation from the start inspired businesses, organizations, government agencies, and the general public throughout the region to also participate. Because of this success and many requests, the ShakeOut will now be held statewide on the third Thursday of October each year.

Registered participants will be given detailed information for planning their drills. The California Department of Education has worked with Team SAFE-T and our partners to create age-appropriate resources for planning drills, promoting participation, teaching about earthquakes and preparedness, and educating families. You can find these resources on The Great California ShakeOut. What K-12 Schools Can Do web page at <http://www.shakeout.org/schools>.

The ShakeOut is designed 1) To provide a sense of urgency about earthquakes; 2) To encourage people, organizations, schools, and communities to get prepared; 3) To practice what to do to be safe, and 4) To learn what plans need to be improved. Schools are leaders in preparedness, and your participation in the ShakeOut will set an example for many others to get involved.

The Shake/Out is organized by the Earthquake Country Alliance, which includes many organizations committed to earthquake and emergency preparedness. Members include the Southern California Earthquake Center, U.S. Geological Survey, California Emergency Management Agency, American Red Cross, California Earthquake Authority, Federal Emergency Management Agency, Bay Area Earthquake Alliance, California Seismic Safety Commission, CalVolunteers, Team SAFE-T, Pacific Gas & Electric, Redwood Coast Tsunami Workgroup, Association of Bay Area Governments, County Offices of Education, and many others.

If you have any questions regarding The Great California ShakeOut, please contact Mark Benthien, Executive Director, Earthquake Country Alliance, at 213-740-1560 or by e-mail at [benthien@usc.edu](mailto:benthien@usc.edu).

Sincerely,

Jan Moorehouse  
Superintendent
