It’s an earthquake!
Where are you?

Who is with you?

Close your eyes and imagine this place. What do you see? List down everything that you see:

What is your first instinct? How do you react?

List down any emotions or thoughts that are going through your mind during the earthquake:

The shaking stopped. Whew!

Is everyone okay?

Is anyone hurt?

What do you do to fix these problems? How do you prevent future earthquake damages?

What are some problems? What has been damaged?

What do you do once the earthquake stops?
