

Get Ready to ShakeOut!

Everyone, everywhere, should know how to protect themselves in an earthquake. Even if earthquakes are rare where you live, they may happen where you or your family travel.

To practice what to do, you are invited to join millions of people who “Drop, Cover, and Hold On” each year as part of Great ShakeOut Earthquake Drills around the world!

Why is “Drop, Cover, and Hold On” important to practice? You may only have seconds to protect yourself in an earthquake before strong shaking knocks you down, or something falls on you. Practicing helps you be ready to react. Visit ShakeOut.org/dropcoverholdon to learn more.

Participating is also a great way for your family or organization to become better prepared to survive and recover quickly from big earthquakes.

For example, you, your school or organization, and your community can review and update plans and supplies, and secure your space in order to prevent damage and injuries.

Everyone can participate! Individuals, families, schools, government agencies, businesses and other organizations are all invited to register.
