Washington is Earthquake and Tsunami Country

Washington has the 2nd highest earthquake risk, and arguably the highest tsunami risk in the United States.

But you can survive - if you get prepared!

Get prepared for future earthquakes and tsunamis with these simple steps:

Learn your Hazards!

Besides earthquakes and tsunamis, Washington is exposed to many other hazards, from severe weather, to volcanic eruptions. Learn about the hazards in your area and what you can do to prepare for them from your local emergency management agency.

Get Alerted!

How will you know about hazards or situations that could be dangerous to you? Learn how you will get alerted about hazardous situations in your area, in multiple ways, and about how to get the free ShakeAlert Earthquake Early Warning System on your phone, at mil.wa.gov/alerts

Gather Supplies!

During and after a disaster, supplies will be difficult to find: make sure you have the essentials set aside for you, your family, and don't forget your pets. Visit mil.wa.gov/preparedness for tips on the essentials.
