WASHINGTON STATE FACES THE 2ND HIGHEST EARTHQUAKE RISK IN THE NATION

Are you prepared? Register to participate in The Great Washington ShakeOut and learn how to conduct your own earthquake and tsunami evacuation drills.

www.shakeout.org/washington

Be Informed:

Know all the potential hazards in the areas you live, work and visit. Review local/state emergency management websites, sign up for alerts and warnings, download warning apps and stay connected.

Make a Plan:

Talk with your family about where to meet and how to communicate; How will you contact each other? Who will pick up the kids from school/daycare? Who can check on your pets? Do your plans change when you are at work vs. at home? Establish your out-of-area contacts.

Build Your Kits:

- Home Disaster Supplies: *Be 2 Weeks Ready!* Don't forget about your pets.
- Grab & Go Kits: Every family member should carry their own.

Become Involved: *(contact your local emergency management office for more info)*

- Conduct a Map Your Neighborhood (MYN) block meeting
- Take Community Emergency Response Team (CERT) training
- Volunteer for Search & Rescue activities (SAR)
- Become an Amateur Radio Operator (RACES)

For more information visit: www.mil.wa.gov/preparedness
